Experience

SPRING 2025 – CURRENT

Junior Software Developer (Cayman Islands Government (CSD)) | I currently design, develop, and support secure web and mobile applications within the Department of eGovernment, contributing across the full software development lifecycle. I also manage CI/CD pipelines, coordinate vendor system migrations, and build scalable solutions using Oracle APEX, PL/SQL, and modern web and mobile technologies.

FALL 2022 – SPRING 2025

IT Assistant (KPMG) | Imaging machines, networking and servers, application development and providing exceptional customer service. Also responsible for managing server backups for the firm.

SUMMER 2022 – FALL 2022

Office Support Assistant (Cayman Islands Government (CSD)) | ISTQB training, documentation of Oracle Apex applications, Data Dictionaries, ER diagrams and user manuals.

Achievements

Successfully created a public transportation system in PHP for college while receiving excellent user satisfaction reports from professors. Recently converted to both a PWA and Mobile app.

Developed a muscle workout application in C++ with local user data storage.
